Wall Penetration Flashings

Parts Table

Type I Kits are for sealing single penetrations. They are odd numbered kits. Type II Kits are for sealing multiple wires in the same penetration. They are even numbered kits and are selected for use based on the approximate diameter of the wire bundle.

Freezeless wall hydrants use a WPF 10 kit.

Custom sized kits can be ordered to specifications.

Round Penetration Diameter	Kit Number
Up to ½ inch single penetration	WPF 1
Type II	WPF 2
5/8 inch to 1 inch single	WPF 3
Type II	WPF 4
1-1/4 inch to 1-1/2 inch single	WPF 5
Type II	WPF 6
2 inch single penetration	WPF 7
Type II	WPF 8
2-1/2 inch single penetration	WPF 9
Type II	WPF 10
3 inch single penetration	WPF 11
Type II	WPF 12
3-1/2 inch	WPF 13
4 inch	WPF 15
5 inch	WPF 17
6 inch	WPF 19
8 inch	WPF 21
10 inch	WPF 23
12 inch	WPF 25
Wire Penetrations	
20 amp wire	WPF 28-20
50 amp	WPF 28-50
100 and 150 amp wire	WPF 28-150
200, 300, and 400 amp wire	WPF 28-400
Rectangular Penetrations	
Up to 8 linear feet of perimeter	WPF 50
