**PRODUCT DESCRIPTION**

**BASIC USES**
The Preformed Column Boot is a 60 mil combination of rubberized asphalt bonded to polyethylene. The adhesive surface is covered with a release liner. Liquid Adhesive is used to prepare surfaces for Preformed Column Boot.

The Preformed Column Boot provides maximum protection against moisture infiltration at outer corners. It bridges the flashing where it terminates, forming a continuous water deterrent seal. Preformed Column Boot can be used wherever a continuous water seal around outer corners is desired.

At present, flashing around corners requires a series of cuts, folds, flaps and patching with mastic. This is a time consuming, difficult procedure which often results in a less than desirable corner condition.

Preformed Column Boot offer an easy and practical method of field installation, eliminating as much as 10 minutes (per corner) of expensive field labor time. But most important, the design provides maximum protection against water penetration at outside corner conditions.

**ISO 9001 QUALITY CERTIFICATION**
Preformed Column Boots are not covered by Polyguard’s ISO 9001 quality system.

**INSTALLATION**

**SURFACE PREPARATION**
Clean all surfaces of dust, dirt and foreign matter. Eliminate sharp protrusions, which may puncture membrane. Surfaces should be dry prior to application of 650 LT Liquid Adhesive and Preformed Column Boot.

**APPLICATION**
Remove silicone release liner and apply to properly prepared surface. Application method and substrate can vary depending on system specified by Polyguard, contact Polyguard for additional information.

**LIMITATIONS**
Polyguard Membranes should be covered within 30 days to prevent prolonged exposure to sunlight.

**STORAGE**
Polyguard membranes should be handled and stored so as to prevent injury to packages. Material should be stored in a cool, dry place, kept from contact with earth and protected from weather. Materials should be stored in heated buildings during cold weather.

**SAFETY**
MSDS sheets for all Polyguard products can be obtained at our website www.polyguardproducts.com. Call Polyguard Products, Inc. at 214.515.5000 with questions.

**WARRANTY**
We, the manufacturer, warrant only that this product is free of defects, since many factors which affect the results obtained from this product are beyond our control; such as weather, workmanship, equipment utilized and prior condition of the substrate. We will replace at no charge product proved to be defective within 12 months of purchase, provided it has been applied in accordance with our written directions for uses we recommend as suitable for this product. Proof of purchase must be provided. A five (5) year material or system warranty may be available upon request. Contact Polyguard Products, Inc. for further details.

**TECHNICAL SERVICES**
Technical assistance, information and Polyguard’s products are available through a nationwide network of distributors and architectural representatives, or contact Polyguard Products, Inc.
