HEADLINE: POLYGUARD ACQUIRES [WWW.POLYGUARD.COM](http://www.polyguard.com) DOMAIN

ENNIS, TX – Polyguard Products Inc. announced that it has acquired the domain www.polyguard.com to merge with the domain www.polyguardproducts.com which it has owned since 1998.

“We have worked to acquire that domain name from another company which operates in a different industry altogether for over 10 years now and we were finally able to come to an agreement on the transfer of ownership,” Polyguard President Shawn Eastham said. “This will enable us to use that name in our marketing materials and will allow our customers another, easier way to log onto our website.”

The change also affects all Polyguard emails, which will now also end in the suffix @polyguard.com.

[Polyguardproducts.com](http://polyguardproducts.com) will continue to bring visitors to the official Polyguard website and all email addresses going to @polyguardproducts.com email suffixes will continue to direct users to the proper Polyguard employee or department.

The addition of the [Polyguard.com](http://polyguard.com) domain comes six months after Polyguard updated its website to a more modern layout and platform, which also increased usability of the site resulting in additional traffic.

Founded in 1953, **Polyguard Products** specializes in products which protect surfaces and structures from moisture, water, or other undesired substances. Polyguard is an industry leader in the production self-adhesive protective coatings for engineering and construction. Polyguard is also a 100% employee-owned ESOP with 23 consecutive years of sales growth.
