POLYGUARD FEATURED BY US CHAMBER OF COMMERCE

Polyguard Products Inc. was recently featured in a video and online profile by the US Chamber of Commerce's Faces of Trade Program.

The profile and video can be found online at <http://tradeworksforus.com/faces/polyguard/>.

Polyguard's International Business Development Manager Nate Muncaster spoke about Polyguard's employee ownership, various global markets and the impact US trade policies have on the business.

Faces of Trade is a program created by the US Chamber to highlight the businesses behind trade in America.

"Half of all U.S. manufacturing jobs depend on exports, one in three acres on American farms is planted for international sales, and 49 out of every 50 U.S. companies that ship to other countries are small businesses," the US Chamber says on its Faces of Trade website. "But for too long, it has been hard to identify the everyday workers, farmers, and entrepreneurs whose livelihoods depend on trade - until now."

Founded in 1953, **Polyguard Products** specializes in products which protect surfaces and structures from moisture, water, or other undesired substances. Polyguard is an industry leader in the production self-adhesive protective coatings for engineering and construction. Polyguard is also a 100% employee-owned ESOP with 25 consecutive years of sales growth.
