**Section 1. Identification**

**GHS product Identifier** Polyguard Alumaguard® Cool Wrap

**Other means of identification** Not available

**Relevant identified used of the substance or mixtures and uses advised against**
Water proofing/Vapor Barrier used on insulated duct and piping applications.

**Supplier’s details**
Polyguard Products, Inc.
4101 South Interstate 45
Ennis, TX 75119
Tel: (214) 515-5000

**Emergency telephone number) with hours of operation)**
CHEMTREC, US 1-800-424-9300 International 1-703-527-3887 (24/7)

**Section 2. Hazards Identification**

**OSHA/HCS status**
While this material is not considered hazardous by the OSHA Hazardous Communications Standard (49CFR1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

**Classification of the substance or mixture**
Not classified

This product is manufactured as an article under the United States Hazard Communication System and is exempted from the regulatory requirements under HCS.

**GHS label elements**

**Signal word** No signal word

**Hazard statement** No known significant effects or critical hazards.

**Precautionary statements**

**Prevention** Not applicable

**Response** Not applicable

**Storage** Not applicable

**Disposal** Not applicable

**Hazards not otherwise classified** None known

**Section 3. Composition/Information on Ingredients**

**Substance/Mixture** Mixture

**Other means of identification** Not available

The exact percentage (concentration) in the composition has been withheld as a trade secret.

Occupational exposure limits, if available are listed in section 8.

None of the components of this article are in a respirable state.
Section 4. First Aid Measures

**Description of necessary first aid measures.**

**Eye contact**
Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if symptoms occur.

**Inhalation**
Because of the nature of this product, inhalation is not a route of exposure.

**Skin contact**
Material is in a solid form. If skin contact, wash area with soap and water. Get medical attention if skin irritation occurs.

**Ingestion**
Ingestion is not a route of exposure.

**Most important symptoms/effects, acute and delayed**

**Potential acute health effects**

- **Eye contact**: No known significant effects or critical hazards
- **Inhalation**: No known significant effects or critical hazards
- **Skin contact**: No known significant effects or critical hazards
- **Ingestion**: No known significant effects or critical hazards

**Over-exposure signs/symptoms**

- **Eye contact**: No known significant effects or critical hazards
- **Inhalation**: No known significant effects or critical hazards
- **Skin contact**: No known significant effects or critical hazards
- **Ingestion**: No known significant effects or critical hazards

**Indication of immediate medical attention and special treatment needed, if necessary.**

- **Notes to physician:** Treat symptomatically.
- **Specific treatments:** No specific treatment
- **Protection of first aiders:** No action shall be taken involving any personal risk or without suitable training.

Section 5. Fire-Fighting Measures

**Extinguishing media**

- **Suitable extinguishing media**: Use an extinguishing agent suitable for the surrounding fire.
- **Unsuitable extinguishing media**: None known
- **Special hazards arising from the chemical**: No specific fire or explosion hazard.

- **Hazardous thermal decomposition products**: Decomposition products may include the following materials:
  - Carbon Dioxide
  - Carbon Monoxide
  - Sulfur oxides
  - Low MW hydrocarbons

**Special protective equipment**

- Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full-face piece operated in a positive pressure mode.

**Special protective actions for fire fighters**

- Promptly isolate the scene by removing all persons from the vicinity of the incident is there is a fire. No action shall be taken involving any personal risks or without suitable training.
Section 6. Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures.**

**For non emergency personal**
Put on appropriate personal protective equipment.

**For emergency responders**
If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in “For non-emergency personnel.”

**Environmental precautions**
Material will not spill.

**Methods and materials for containment and cleaning up**

**Spill**
Due to the physical state of this material, spills are not possible.

Section 7. Handling and Storage

**Precautions for safe handling**
Put on appropriate personal protective equipment (see Section 8).

**Protective measures**
Eating, drinking and smoking should be prohibited in areas where material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See section 8 for additional information on hygiene measures.

**Conditions for safe storage, including any incompatibilities**
Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry cool and well-ventilated area away from incompatible materials (see section 10) and food and drink.

Section 8. Exposure Controls/Personal Protection

**Occupational exposure limits**

Section 8. Exposure Controls/Personal Protection

Appropriate engineering controls  No special ventilation requirements. Good ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls  Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

Hygiene measure  Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory and at the end of the working period. Ensure that eyewash stations and safety showers are close to the workstation location.

Eye/face protection  Safety eyewear complying with an approved standard should be used when risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases and dusts.

Skin Protection
Hand protection  Chemical- resistant, imprevious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Body protection  Personal protective equipment for the body should be selected based on the task being preformed and the risks involved and should be approved by a specialist before handling this product.

Other skin protection  Appropriate footwear and any additional skin protection measures should be selected based on the task being preformed and the risks involved and should be approved by a specialist before handling this product.

Respiratory protection  Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and Chemical Properties

Appearance
Physical state  Solid
Color  Silver/white
Odor  Asphaltic(slight)
Odor threshold  Not available
pH  Not applicable
Melting point  Not available
Boiling point  Not applicable
Flash Point  Not determined
Evaporation rate:  Not applicable
Flammability (solid, gas)  Not applicable
Lower & upper explosive (flammable) limits  Not applicable
Vapor density  Not applicable
Vapor pressure  Not applicable
Relative density  1.09
Solubility  Insoluble in water
Partition coefficient: n- octanol/water  Not available
Auto- ignition temperature  Not applicable
Decomposition temperature  Not applicable
Viscosity  Not applicable
VOC  0 g/l
Section 10. Stability and Reactivity

Reactivity  
No specific test data related to reactivity available for this product or its ingredients.

Chemical stability  
This product is stable.

Possibility of hazardous reactions  
Under normal conditions of storage and use, hazardous reaction will not occur.

Conditions to avoid:  
No specific data.

Incompatible materials  
Reactive or incompatible with the following materials: Oxidizing materials

Hazardous decomposition products  
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Other adverse effects: No known significant effects or critical hazards

Section 13. Disposal Considerations

Disposal methods: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.
